crusader kings ii saxon unit pack. crusader kings 2 saxon unit pack

Paradox DLC is ... infinite... it cannot be defeated.. Should have come with 'The Old Gods', like so many more of these stupid cosmetic DLC's.. A bug in the current build of the game has caused the models in this pack to be bugged and to not display properly, with the sheilds of the unit clipping horrendously into the unit's torso. Do not buy this pack until the bug is rectified. Pretty lame. Not worth the 2\$. Wait for it to go 75% off. I find these sprites a nice addition to my game, however I do not approve of the current DLC policy. I'm giving this a recommend as it has improved my CKII experience (I play as West Germanics a lot, btw), but the DLC spam needs to stop.. A nice add-on for flavor.. Great early on but makes no sense later as you dont change to knights you just stay as saxons all the way up till the end of tha game.everyone has knights and im stuck with dark age sprites.. Seems like the current patch broke it and now it dosent work anymore, instead it appears using the old norman\english ones. Paradox plz fix!
